

WOMEN'S LEADERSHIP

Advisory Board

About Guardian's Women's Leadership Advisory Board

The Women's Leadership Advisory Board (WLAB) is composed of financial representatives from various Guardian general agencies and local offices. The WLAB fosters leadership and career excellence among female financial representatives. The Board advises and counsels Guardian management on programs designed to recruit, retain, coach and mentor female financial representatives. In collaboration with Guardian management, the WLAB also promotes better understanding and response to recruiting, mentoring, and retaining female financial professionals in the career distribution system.
